

ATTACHMENT 02  
**EXHIBIT B - CONDITIONS OF APPROVAL**  
**ORELLANA / DRC2015-00097**

**Approved Development**

1. This approval authorizes
  - a. Construction of a 3,046 square-foot single-family residence with a 528 square-foot attached garage, and 445 square-feet of deck.
  - b. The project will result in the removal of one Monterey pine tree, removal of two oak trees, and impacts to one oak tree. The removed Monterey pine tree will be replanted at a 4:1 ratio, the removed oak trees will be replanted at a 6:1 ratio, and the impacted oak tree will be mitigated at a 3:1 ratio, all on an off-site lot owned by Greenspace.
    - 1.
  - c. Maximum height allowed is 28 feet from average natural grade.

**Conditions required to be completed at the time of application for construction permits**

**Site Development**

2. **At the time of application for construction permits**, submit a revised landscape plan to the Department of Planning and Building for review and approval. The revised plan shall indicate the following and development shall be consistent with this revised and approved plan:
  - a. All areas of the site disturbed by project construction shall be revegetated with native, drought and fire resistant species that are compatible with the habitat values of the surrounding forest. Non-native, invasive, fire prone, and water intensive (i.e. turf grass) landscaping shall be prohibited on the entire site. All landscaping and construction practices shall work to maintain and regenerate habitat values. Plant materials shall be used to mimic or enhance naturally occurring vegetation. Materials shall be propagated from appropriate native stock to ensure that the gene pool is not diluted for endemic species. This is particularly true for Monterey Pines and riparian plantings. A list of prohibited plants, such as Pampas grass and Scotch broom, is available from the Department of Planning and Building. Use of plants listed in the California Invasive Plant Council (Cal IPC) Invasive Plant Inventory is prohibited.
3. **At the time of application for construction permits**, submitted plans shall conform to the approved site plan, architectural plans, and elevations.
4. **At the time of application for construction permits**, the applicant shall provide details on any proposed exterior lighting, if applicable. The details shall include the height, location, and intensity of all exterior lighting. All lighting fixtures shall be shielded so that neither the lamp nor the related reflector interior surface is visible from adjacent properties. Light hoods shall be dark colored.

**Access**

5. **At the time of application for construction permits**, the applicant shall submit an application, fee and plans to the Department of Public Works to secure an Encroachment Permit:
  - a. To construct a new driveway approach in accordance with county public improvement standards A-5 (sight distance) and B-1 (rural driveway) series drawings.

***Drainage***

6. **At the time of application for construction permits**, the applicant shall submit complete drainage plans for review and approval in accordance with Section 23.05.040 (Drainage) of the Land Use Ordinance.
7. **At the time of application for construction permits**, the applicant shall submit complete erosion and sedimentation control plan for review and approval in accordance with 22.52.120.
8. **At the time of application for construction permits**, the applicant shall demonstrate that the project construction plans are in conformance with their Storm Water Control Plan.

***Storm Water Control Plan***

9. **At the time of application for construction permits**, the applicant shall demonstrate whether the project is subject to the LUO Section for Storm Water Management. Applicable projects shall submit a Storm Water Control Plan (SWCP) prepared by an appropriately licensed professional to the County for review and approval. The SWCP shall incorporate appropriate BMP's, shall demonstrate compliance with Storm Water Quality Standards and shall include a preliminary drainage plan, a preliminary erosion and sedimentation plan. The applicant shall submit complete drainage calculations for review and approval.
10. **At the time of application for construction permits**, if necessary, the applicant shall submit a draft "Private Storm Water Conveyance Management and Maintenance System" exhibit for review and approval by the County.

***Fire Safety***

11. **At the time of application for construction permits**, all plans submitted to the Department of Planning and Building shall meet the fire and life safety requirements of the California Fire Code. Requirements shall include, but not be limited to those outlined in the Fire Safety Plan, prepared by the CDF/County Fire Department for this proposed project and dated January 12, 2016.

***Services***

12. **At the time of application for construction permits**, the applicant shall provide a letter from Cambria Community Services District stating they are willing and able to service the property.

**Conditions to be completed prior to issuance of a construction permit**

***Tree Replacement***

13. **Prior to issuance of a construction permit**, the applicant shall provide proof that trees to replace those removed and impacted have been purchased and will be planted by Greenspace. Trees shall be purchased at a 4:1 ratio for the removed Monterey pine tree, and at a 6:1 ratio for the two removed oak trees. Additionally, the impacted oak tree will be replaced at a 3:1 ratio.

***Fees***

14. **Prior to issuance of a construction permit**, the applicant shall pay all applicable school and public facilities fees.

**Storm Water Control Plan**

15. **Prior to issuance of construction permits**, if necessary, the applicant shall record with the County Clerk the "Private Storm Water Conveyance Management and Maintenance System" to document on-going and permanent storm drainage control, management, treatment, disposal and reporting.

**Archaeology**

16. **Prior to issuance of a construction permit**, the applicant shall retain a qualified archaeologist to perform a surface collection of all lithic material on the parcel. A report on the lithic analysis shall be submitted to the County.
17. **Prior to issuance of construction permits**, the applicant shall submit a monitoring plan, prepared by a County-approved archaeologist, for review and approval by the County Department of Planning and Building phase. The intent of this Plan is to monitor all earth-disturbing activities in the Construction Permit Area identified as potentially sensitive for cultural resources, per the approved monitoring plan. The monitoring plan shall include at a minimum:
  - a. List of personnel involved in the monitoring activities;
  - b. Inclusion of involvement of the Native American community, as appropriate;
  - c. Description of how the monitoring shall occur;
  - d. Description of frequency of monitoring (e.g., full-time, part time, spot checking);
  - e. Description of what resources are expected to be encountered;
  - f. Description of circumstances that would result in the halting of work at the project site (e.g., what is considered "significant" archaeological resources?);
  - g. Description of procedures for halting work on the site and notification procedures; and
  - h. Description of monitoring reporting procedures.

**Conditions to be completed during project construction****Building Height**

18. The maximum height of the project is 28 feet from average natural grade.
  - a. **Prior to any site disturbance**, a licensed surveyor or civil engineer shall stake the lot corners, building corners, and establish average natural grade and set a reference point (benchmark).
  - b. **Prior to approval of the foundation inspection**, the benchmark shall be inspected by a licensed surveyor prior to pouring footings or retaining walls, as an added precaution.
  - c. **Prior to approval of the roof nailing inspection**, the applicant shall provide the building inspector with documentation that gives the height reference, the allowable height and the actual height of the structure. This certification shall be prepared by a licensed surveyor or civil engineer.

**Archaeology**

19. **During all ground disturbing construction activities**, the applicant shall retain a qualified archaeologist (approved by the Environmental Coordinator) and Native American to monitor all earth disturbing activities, per the approved monitoring plan. If any significant archaeological resources or human remains are found during construction, work shall stop within the immediate vicinity (precise area to be determined by the archaeologist in the field) of the resource until such time as the resource can be evaluated by an archaeologist and any other appropriate individuals. The applicant shall implement the mitigation as required by the Environmental Coordinator. A final report on compliance shall be submitted by the archaeologist **prior to final inspection/occupancy**.

20. **During construction**, in the event archaeological resources are unearthed or discovered, the following standards apply:
- a. Construction activities shall cease and the Environmental Coordinator and Planning Department shall be notified so that the extent and location of discovered materials may be evaluated by a qualified archaeologist, and disposition of artifacts may be accomplished in accordance with state and federal law. The applicant shall implement the mitigation as required by the Environmental Coordinator.
  - b. In the event archaeological resources are found to include human remains, or in any other case where human remains are discovered during construction, the County Coroner is to be notified in addition to the Planning Department and Environmental Coordinator so that proper disposition may be accomplished.

**Conditions to be completed prior to occupancy or final building inspection /establishment of the use**

***Site Development***

21. Landscaping in accordance with the approved landscaping plan shall be installed before ***final building inspection***. All landscaping shall be maintained in a viable condition in perpetuity.

***Fire Safety***

22. **Prior to occupancy or final inspection**, whichever occurs first, the applicant shall obtain final inspection and approval from CDF of all required fire/life safety measures.

***Inspection***

23. **Prior to occupancy of any structure associated with this approval**, the applicant shall contact the Department of Planning and Building to have the site inspected for compliance with the conditions of this approval.

***Archaeology***

24. **Upon completion of all monitoring/mitigation activities, and prior to final inspection**, the consulting archaeologist shall submit a report to the Environmental Coordinator summarizing all monitoring/mitigation activities and confirming that any recommended mitigation measures have been met.

**On-going conditions of approval (valid for the life of the project)**

25. This land use permit is valid for a period of 24 months from its effective date unless time extensions are granted pursuant to Land Use Ordinance Section 23.02.050 or the land use permit is considered vested. This land use permit is considered to be vested once a construction permit has been issued and substantial site work has been completed. Substantial site work is defined by Land Use Ordinance Section 23.02.042 as site work progressed beyond grading and completion of structural foundations; and construction is occurring above grade.
26. All conditions of this approval shall be strictly adhered to, within the time frames specified, and in an on-going manner for the life of the project. Failure to comply with these conditions of approval may result in an immediate enforcement action by the Department of Planning and Building. If it is determined that violation(s) of these

ATTACHMENT 02

conditions of approval have occurred, or are occurring, this approval may be revoked pursuant to Section 23.10.160 of the Land Use Ordinance.

***Fees***

27. **On-going condition of approval (valid for the life of the project)**, and in accordance with Title 13.01 of the County Code, the applicant shall be responsible for paying to the Department of Public Works the North Coast Road Impact Fee. The fee shall be imposed at the time of application for building permits and shall be assessed for each building permit to be issued. These fees are subject to change by resolution of the Board of Supervisors. The applicant shall be responsible for paying the fee in effect at the time of application for building permits.

***Drainage***

28. **On-going condition of approval (valid for the life of the project)**, the project shall comply with the requirements of the National Pollutant Discharge Elimination System Phase I and / or Phase II storm water program and the County's Storm Water Pollution Control and Discharge Ordinance, Title 8, Section 8.68 et sec.
